## “Turkey Tough” Feeders, Feed Bins & Fill Systems

From start to finish, Chore-Time’s line of turkey feeders provides a winning combination of performance and durability.

### MODEL ATF™ PLUS Feeder

- Durable feeder assembly
- Corrosion-proof plastic
- Durable galvanized steel
- Feed-saving pan shape
- Adjustable feed level
- Labor-saving central winching
- Swing-down pan for easy cleaning

Chore-Time’s MODEL ATF™ PLUS Feeder is rugged, corrosion-resistant and “tom tough.”

Chore-Time’s Adult Turkey Feeder comes in two models. The MODEL ATF™ PLUS (left) has two inches (51 mm) more of eating space between the pan and shield and also under the feed tube than the MODEL ATF™ Feeder has in order to give big birds more room.

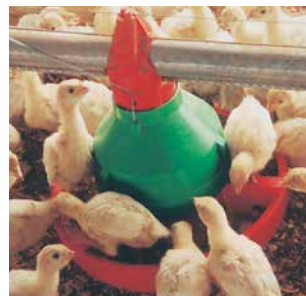

### Chore-Time’s LIBERTY®

**Open-Grill Turkey Feeder** maximizes feed visibility and access while minimizing feed waste.

- When raised, Bird Positioning Ring helps keep poults out of the feeder, yet shows them the flowing feed.
- No windows to restrict flow means feed is more visible.
- ALL-OUT™ Flooding from any pan height, even in the air.
- Feed Cone can be winched for a variable flood level as birds grow or manually locked in place.

The KONAVI® Poults Feeding System features an angled cone with anti-rake fins that discourages birds from standing in the feeders – for cleaner, healthier feed.

CHORE-TIME’S MODEL H2™ PLUS Poults Feeder features simple flood feeding and a completely grill-less design.

Chore-Time’s FLEX-AUGER® Feed Delivery System provides reliable feed delivery adaptable to many system layouts.

Chore-Time’s ALL-OUT® Feed Storage Bins offer convenience features such as the ACCESS PLUS® Hopper Access Door.

## Watering

Drinker options provide plenty of fresh water to enhance growth and feed conversion.

With Chore-Time's patented **ADVANTI-FLOW®** Poult Drinker, birds drink from uniquely designed nipple drinker discs and also from litter-saving dual catch cups. Poults get plenty of water, and floors stay drier.

Chore-Time's **PDS™ Controls** permit producers to change the water pressure in all drinker lines or to flush all lines in the house from one remote location.

Chore-Time's **Regulator and Stand Tube** provide plenty of water. Same **VOLUMATIC™** Regulator for both pneumatic and regular function. Single, large selector knob with on, off and flush positions.

## Controls & Scales

Chore-Time offers a complete line of controls from simple thermostats to user-friendly complete system controllers as well as electronic scale systems.

**CHORE-TRONICS® Controls** are industry favorites thanks to their expandability, built-in peripherals and other convenience features.

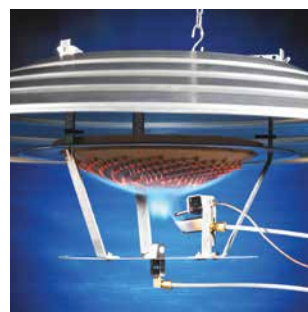

Chore-Time's **Turkey Scales** provide an affordable and accurate way to track growth and uniformity for more precise harvest scheduling and to help you optimize your operation based on user-defined standards.

## Heating

Increase heating efficiency and save labor with Chore-Time.

Chore-Time's **Brooders and Heaters** provide a reliable, low-maintenance source of heat for young birds as well as for use during cool times.

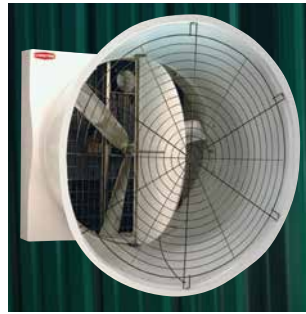

## Ventilation

Chore-Time has what you need to keep your poult and turkeys comfortable and productive.

Chore-Time's complete ventilation equipment package includes:

- High-performance cone exhaust fans
- Reliable box circulation fans
