

Plastic Feeder Line Hopper

Let's grow together®

For Easier Handling and Improved Feed Flow

- Chore-Time's plastic feeder line hopper is easy to remove for house clean-out thanks to the twist-lock bottom collar. Simply twist and lift to remove the lightweight hopper.
- Smooth interior surface and 60-degree hopper slope improve feed flow, plus no corners where feed could hang up.
- Unit has a 150-pound (68-kg) capacity.
- Suspension points on the hopper's separate boot structure simplify removal of the hopper without the need to disconnect and then reconnect and adjust cables.
- Durable polypropylene plastic construction is lighter for handling, will not rust or dent, and is easy to clean.
- Unit consists of just four basic components for fast assembly.

Patented
(Additional
Patents Pending)

Design incorporates two suspension cables – one on each side of the boot structure for greater stability and minimized cable stretch.

Twist-lock collar makes hopper easy to remove for house clean-out. Simply twist and lift.

Two flattened areas (one on each side) are built in for panel type switch mounting.

Optional molded plastic cover helps keep birds out of hopper and includes a drop tube opening.

Built-in tube support holds drop tube in position and permits easy drop tube removal for house clean out.
