

LIBERTY® Open-Grill Turkey Feeder

Let's grow together™

**Maximizes Feed Visibility and Access
While Minimizing Feed Waste**

Feeder Specifications

Feeder Specifications	Birds Per Feeder	Feed Cone Color
Poults (to 7 weeks)	60-65	Green

Well-Suited for Feeding Turkeys

The LIBERTY® Feeder's Bird Positioning Ring helps keep poults out of the feeder – no more raking out crusty feed.

When the green feed cone is raised, the unique shape of the center cone helps poults see feed flowing.

Using a winch, adjust the flood level in up to 200 feet (61 m) of feeder line at a time – 100 feet (30.5 m) in each direction.

ALL-OUT™ Flooding from Any Height

The LIBERTY® Feeder delivers ALL-OUT™ Flooding, on the floor or in the air.

The green feed cone can be manually locked into the full flood position, or use winching for a variable flood level.

The LIBERTY® Feeder's Actuator System features a positive locking mechanism which prevents over- or under-cranking.

No windows to restrict feed flow means feed is more visible and heaped high for poults.

Count on Chore-Time for
experience, reliability,
performance and confidence.

No windows to restrict feed flow means feed in the LIBERTY® Feeder is more visible and heaped high for young birds.

When raised up, the LIBERTY® Feeder's Bird Positioning Ring helps keep poults out of the feeder, yet shows them the flowing feed.

Designed to Save Feed

1. The grill extends into the feeder's pan, forming a feed-retaining lip.
2. The rounded pan bottom shape moves the feed further out in the pan and encourages birds to shift to perimeter eating faster.
3. Chore-Time's LIBERTY® Feeder's bird positioning ring and feed fins serve as anti-rake devices when lowered into the feed.

Engineered for Comfort

Chore-Time's LIBERTY® Feeder's open design provides easy access to feed for birds of all sizes.

Patented scallops on the grill/pan edge fit the shape of the birds.

Openings in the top of the grill deliver light and air to birds while they eat.

Easy Cleaning and Maintenance

The LIBERTY® Pan hangs securely from two hinges for cleaning.

Hinge locks facilitate cleaning while holding the pan in place.

Feeder can be rotated on the line to empty out feed between flocks.

Non-corroding, all-plastic construction.

LIBERTY® Open-Grill Turkey Feeder

The LIBERTY® Turkey Feeder is offered with a **green feed cone**. Mechanical and electronic control pans are available in both intermediate and end-control models.

Chore-Time's LIBERTY® Feeder features **six feed level settings** from 0.375 inches (9.5 mm) to 1.5 inches (38 mm) to control the amount of feed when the feed cone is in the lowered position.
