

# CHORE-TIME® Drinking System Management Tools

Let's grow together®

## Simplify Drinker Management with Chore-Time's Breather Cap, Folding Stand Tube and PDS™ Control

### Folding Stand Tube:

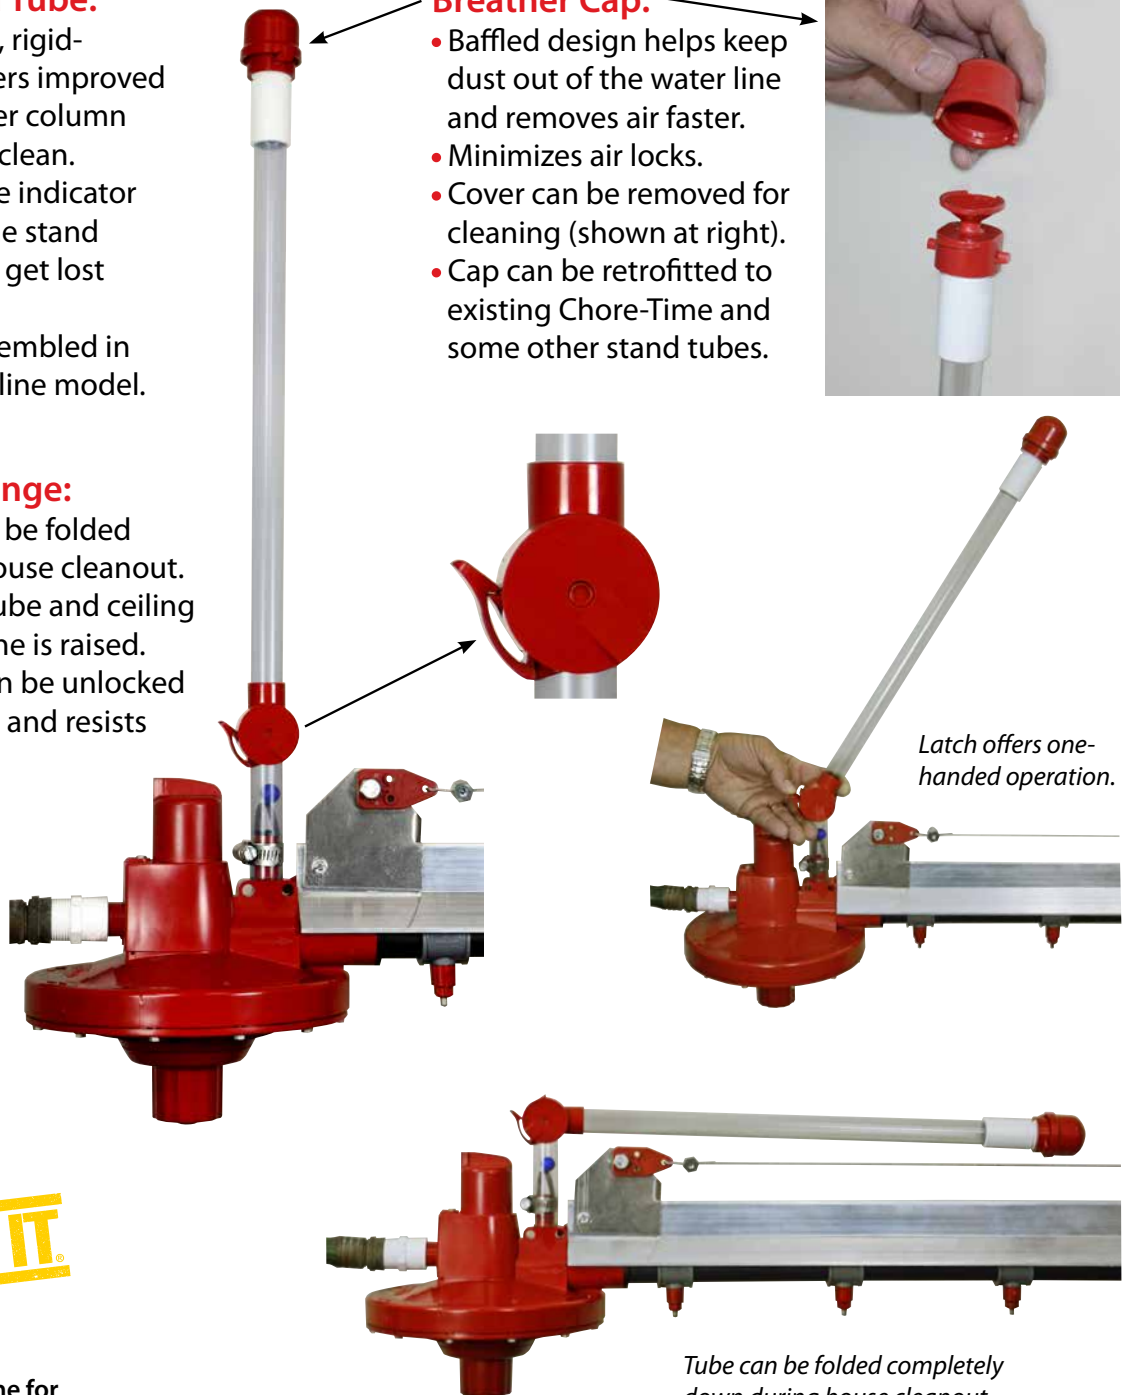

- Large-diameter, rigid-plastic tube offers improved visibility of water column and is easier to clean.
- Easy-to-see blue indicator ball is held in the stand tube so it won't get lost or dropped.
- Comes fully assembled in an end- or mid-line model.

### Stand Tube Hinge:

- Permits tube to be folded down during house cleanout.
- Protects both tube and ceiling when drinker line is raised.
- Robust latch can be unlocked using one hand and resists bird activity.

### Breather Cap:

- Baffled design helps keep dust out of the water line and removes air faster.
- Minimizes air locks.
- Cover can be removed for cleaning (shown at right).
- Cap can be retrofitted to existing Chore-Time and some other stand tubes.

Latch offers one-handed operation.

Tube can be folded completely down during house cleanout.

Count on Chore-Time for experience, reliability, performance and confidence.

## Stand Tube Options

All stand tube styles are now available with Chore-Time's Breather Cap.

**Folding Stand Tube** features a latch for folding the tube over prior to winching up the drinker line.

**Rigid Stand Tube** for use in applications where drinkers are not winched to the ceiling or building has high ceilings.

**Flexible Stand Tube** can be bent over and tied down when drinker line is winched up.

## PDS™ Controls for RELIA-FLOW® and STEADI-FLOW® Drinkers

Chore-Time's PDS™ (Pneumatic Drinking System) Controls offer poultry producers convenient control of the water pressure in all nipple drinker lines in the house.

- Change the pressure in all lines or flush all lines from one remote location.
- Program PDS Controls to automatically flush water lines as often as four times per day or as seldom as once a week.
- Easily run "flush stimulations" to get cool water to the birds during hot weather.
- PDS™ Control models available: up to 16, 32, 64 and 80 regulators.

Easy-to-Program Control for up to 16 Regulators  
A model for up to 80 regulators is also available.
